

## Data Sharing Statement

Zimmermann W-H, Ensminger S, Kutschka I, et al. Stem-Cell–Derived Biologic Ventricular Assist Tissue in Heart Failure. N Engl J Med. DOI: 10.1056/NEJMoa2513525.

Question	Authors' Response
Will the data collected for your study be made available to others?	Yes
Would you like to offer context for your decision?	—
Which data?	Complete patient data set with identifiers
Additional information about data	—
How or where can the data be obtained?	Data will be made available by the Study Centers upon request to the corresponding author (w.zimmermann@med.uni-goettingen.de) two years after completion of all study-related activities.
When will data availability begin?	Two years after completion of all study-related activities
When will data availability end?	—
Will any supporting documents be available?	—
Which supporting documents?	—
Additional information about supporting documents	—
How or where can supporting documents be obtained?	—
When will supporting documents availability begin?	—
When will supporting documents availability end?	—
To whom will data be available?	Researchers whose proposed use of the data has been approved by the Use and Access Committee of the German Center for Cardiovascular Research (DZHK).
For what type of analysis or purpose?	Data will be made available for research purposes only.
By what mechanism?	Data will be made available with a signed data access agreement.

Any other restrictions?	Applications must be accompanied by a detailed analytical plan and IRB approvals as appropriate and will be reviewed by the publication committee.
